

Project Specification: Warm Editorial Luxury

Design Direction

The Aesthetic:

Inspired by premium African lifestyle brands, this design utilizes a rich palette of **Amber**, **Terracotta**, and **Deep Ink** set against a **Warm Cream** background. This intentional choice avoids the common "purple gradient on white" trope.

- **Depth:** Enhanced via a noise texture overlay and concentric circle motifs.
- **Typography:** A sophisticated pairing of *Playfair Display* (Editorial Serif) for headings and *DM Sans* (Clean Modern Sans) for body text.

Structure & Features Built

Requirement	What was built
Header	Sticky, blurred (backdrop-filter), with logo, nav links, cart badge, and mobile hamburger.
Product Section	4 product cards — each with image area, name, description, price (with discount), tag chips (New / Sale / Best / Limited), and "Shop Now" button.
Footer	4-column grid with brand, shop links, info links, help links, socials, and legal row.
Responsive Design	Tailwind breakpoints + custom media queries; grid collapses \$4 \to 2 \to 1\$ on smaller screens.
Tailwind CSS	Used throughout for layout, spacing, and utility styling.

Extra Touches & Technical Details

- **Marquee Ticker:** Dynamic display featuring key selling points.
- **Scroll Reveal:** Animations powered by `IntersectionObserver` with staggered product card entrances.
- **Micro-interactions:** "Shop Now" button text changes to "Added ✓" on click for immediate feedback.
- **Visual Flair:** Hero stat cards floating on product images and filter pills in the product section header.
- **Newsletter Section:** Styled with a dark gradient and decorative rings.
- **Code Quality:** All code is strictly commented by section for maintainability and readability.
